

## Surgical treatment outcome description

To be used if Surgical Treatment Description was filled out before. This form is designed to describe results of treatment of specific lesions treated with transplantation procedure.

**BIOBANK CODE**

|  |  |   |  |  |  |   |  |  |  |  |   |
|--|--|---|--|--|--|---|--|--|--|--|---|
|  |  | - |  |  |  | - |  |  |  |  | 0 |
|--|--|---|--|--|--|---|--|--|--|--|---|

**Current date** (dd-mm-yyyy) \_\_\_\_ - \_\_\_\_ - \_\_\_\_\_

**Date of transplantation procedure** (dd-mm-yyyy) \_\_\_\_ - \_\_\_\_ - \_\_\_\_\_

---

### Donor site side effects

- |   |                                      |
|---|--------------------------------------|
| <input type="radio"/> Scarring          | <input type="radio"/> Koebnerization |
| <input type="radio"/> Hyperpigmentation | <input type="radio"/> Infection      |
- 

### Acceptor site No. 1

#### Side effects

- |  |                                     |
|--|-------------------------------------|
| <input type="radio"/> Graft rejection        | <input type="radio"/> Thick margins |
| <input type="radio"/> Graft depigmentation   | <input type="radio"/> Scarring      |
| <input type="radio"/> Cobblestone appearance | <input type="radio"/> Infection     |
| <input type="radio"/> Milia                  |                                     |

Other side effects (specify) \_\_\_\_\_

---

### Skin repigmentation

#### Percentage of repigmentation

- |                              |                               |
|------------------------------|-------------------------------|
| <input type="radio"/> <15%   | <input type="radio"/> 50-95%  |
| <input type="radio"/> 15-50% | <input type="radio"/> 95-100% |

#### Repigmentation spread (for mini-punch grafting)

Average repigmentation spread from a single graft \_\_\_\_ mm

#### Color match

- |  |   |
|--|---|
| <input type="radio"/> Significantly lighter      | <input type="radio"/> Somewhat close but darker |
| <input type="radio"/> Somewhat close but lighter | <input type="radio"/> Significantly darker      |
| <input type="radio"/> Perfect match              |   |

### Hair repigmentation

- |  |   |
|--|---|
| <input type="radio"/> No leukotrichia was at the acceptor site | <input type="radio"/> Partial hair repigmentation |
| <input type="radio"/> Complete hair repigmentation             | <input type="radio"/> No hair repigmentation      |

## Surgical treatment outcome description

Please use this page (or copy if required) to describe if more than one acceptor site was treated

Acceptor site No. \_\_\_\_ (enter next consecutive number of acceptor site in ascending order)

### *Side effects*

- Graft rejection
- Graft depigmentation
- Cobblestone appearance
- Milia
- Thick margins
- Scarring
- Infection

Other side effects (specify) \_\_\_\_\_

### *Skin repigmentation*

#### *Percentage of repigmentation*

- <15%
- 15-50%
- 50-95%
- 95-100%

#### *Repigmentation spread (for mini-punch grafting)*

Average repigmentation spread from a single graft \_\_\_\_ mm

#### *Color match*

- Significantly lighter
- Somewhat close but lighter
- Perfect match
- Somewhat close but darker
- Significantly darker

### *Hair repigmentation*

- No leukotrichia was at the acceptor site
- Complete hair repigmentation
- Partial hair repigmentation
- No hair repigmentation

Acceptor site No. \_\_\_\_ (enter next consecutive number of acceptor site in ascending order)

### *Side effects*

- Graft rejection
- Graft depigmentation
- Cobblestone appearance
- Milia
- Thick margins
- Scarring
- Infection

Other side effects (specify) \_\_\_\_\_

### *Skin repigmentation*

#### *Percentage of repigmentation*

- <15%
- 15-50%
- 50-95%
- 95-100%

#### *Repigmentation spread (for mini-punch grafting)*

Average repigmentation spread from a single graft \_\_\_\_ mm

#### *Color match*

- Significantly lighter
- Somewhat close but lighter
- Perfect match
- Somewhat close but darker
- Significantly darker

### *Hair repigmentation*

- No leukotrichia was at the acceptor site
- Complete hair repigmentation
- Partial hair repigmentation
- No hair repigmentation
